

Outreach at the Shah Jalal University of Science and Technology

July 26, 2006: The American Center outreach team met with the Vice Chancellor of Shahjalal University of Science and Technology, Professor M. Aminul Islam, at his office. The team was headed by Ms. Laura Carey, the acting Deputy Director of the American Center. Ms. Carey discussed various issues of mutual interest with the VC. After this, the outreach members gave presentations at the auditorium of the university for 200 graduate students and faculty members. Ms. Laura Carey spoke on American life and culture, Linda Quamar on American higher education, and Peter Nasuti on American campus life. The students found the presentation interesting and informative. At the end of the program, they enthusiastically participated in a question and answering session, in which they asked many questions about American education. They also wanted to know about the facilities and membership fees of the American Corner in Sylhet. The pictorial presentation "Glimpses of USA" was shown to the students as well.
